PROFESSIONAL EXPERIENCE

Software Developer | AmarUjala Web Services Pvt. Ltd | March 2025 – Present

Projects: [AmarUjala](#) | [The Bonus](#) | [My Jyotish](#) | [MJ Astro](#).

- Developed and maintained multiple cross-platform mobile applications using React Native, supporting news, finance, and astrology domains.
- Built and integrated REST APIs for real-time content delivery, push notifications, and personalized feeds, increasing user engagement by 25%.
- Implemented Firebase Analytics and Crashlytics to monitor application health, improving stability by 35% across production apps
- Developed real-time chat and consultation features using Socket.io and Firebase, enabling live interactions between users and service providers.

Freelance Software Developer | Edyyo Digital Solutions | April 2024 – March 2025

Projects: Legal Paper(Web) | Leave Detection (App)

- Designed and developed scalable web and mobile applications using Node.js and React Native, ensuring performance, security, and maintainable architecture.
- Built and integrated RESTful APIs to enable seamless frontend–backend communication and efficient data handling.
- Implemented intelligent leave detection features to enhance automation and decision-making workflows.

Software Developer | InfraBlok India Pvt. Ltd | June 2023 – March 2024

Projects: Partner Portal | MDVerse

- Built enterprise web applications using React.js and TypeScript with a focus on reusable components and clean architecture.
- Contributed to backend development using Java and Spring Boot, assisting in REST API creation and business logic implementation.
- Worked across frontend and backend teams to ensure smooth feature integration and deployments.

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, TypeScript, Sql

Frameworks: React.js, React Native, Next.js, Node.js, Redux, MaterialUI, Bootstrap , SpringBoot

Platform and Tools: Git, GitHub, IntelliJ IDEA, Postman, Visual Studio Code, MySql Workspace, Ollama, Groq API, OpenRouter API, Prompt Engineering, Local LLM Inference.

EDUCATION

Degree: B.Tech in Information Technology

Duration: 2019-2023

Institution: GL Bajaj Institute of Technology and Management

PROJECTS

Cerebro – On-Device AI Intelligence | [Github](#)

- Leveraged Llama.rn and TypeScript to build a private, local-first chat application, enabling Large Language Model (LLM) inference directly on React Native without server dependency.
- Integrated Whisper.rn for real-time speech-to-text and React Native TTS for assistant feedback, delivering a fluid, hands-free multimodal user experience.
- Engineered a robust parsing system using Mammoth, PDF.js, and XLSX to allow users to query and analyze local documents via on-device AI intelligence.

BrainQuest: AI-Powered Adaptive Assessment Engine | [Github](#) | [Link](#)

- Designed a resilient LLM backend integrating local inference (Ollama / Llama 3) and cloud inference (Groq & OpenRouter APIs) with automated failover and fallback routing.
- Implemented a two-stage generation process where an LLM creates specialized system prompts to guide down-stream quiz generation on the fly.
- Developed a robust multi-tier JSON parser with regex-based markdown stripping and Unicode sanitization, implementing greedy block reconstruction to dynamically repair malformed AI responses.

LocalFix Ecosystem (Web & Mobile) | [Github](#) | [Link](#) | [App Github](#)

- Engineered a responsive mobile experience using React Native, TypeScript, and NativeWind (Tailwind CSS), featuring interactive search, provider profiles, and dynamic service filtering.
- Implemented real-time booking updates and peer-to-peer messaging using Pusher (WebSockets) to ensure immediate updates between customers and providers.
- Automated secure user authentication using Next-Auth, integrated the Razorpay API for seamless transaction processing, and configured Nodemailer for instant transactional billing alerts.
- Modeled a scalable data architecture utilizing MongoDB alongside Mongoose and Prisma ORM to handle high-frequency bookings, reviews, and provider dispatch queues.
